BB84 Quantum Key Distribution Simulation Report

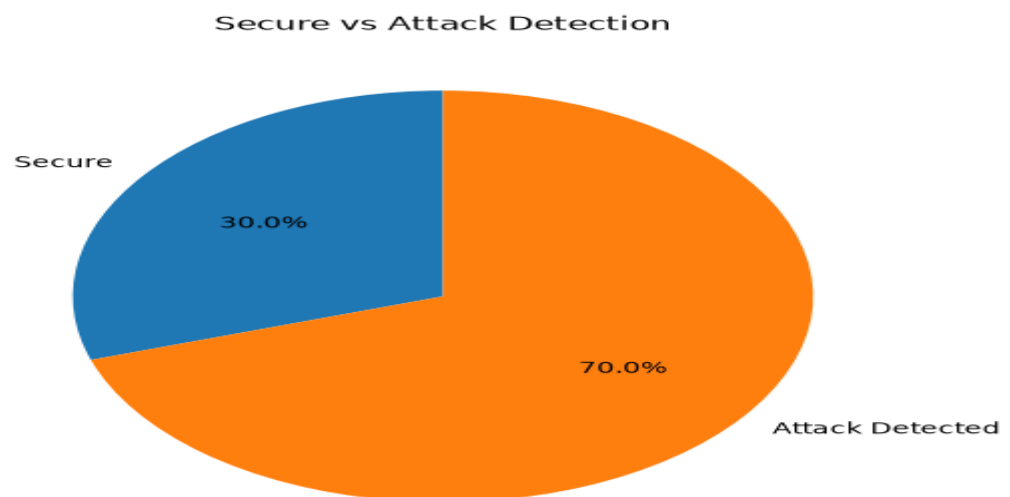

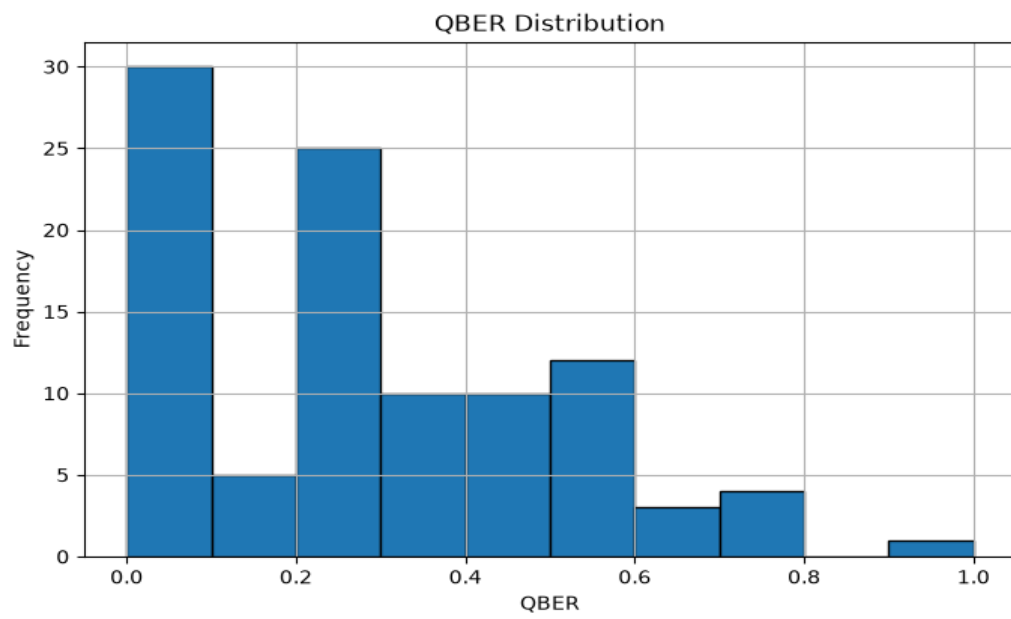

Generated on : 2026-07-27 03:10:37.262277

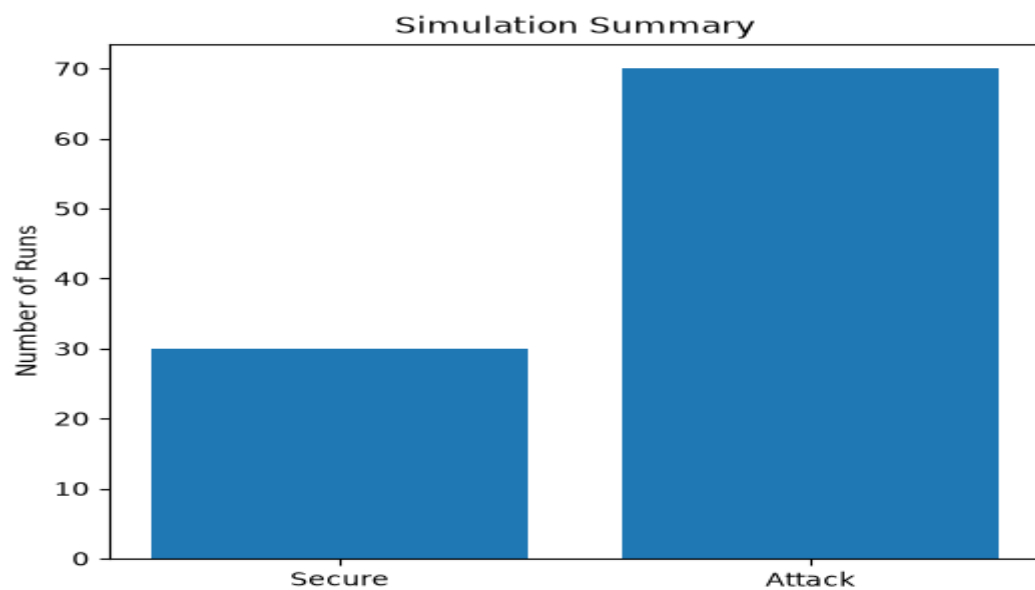

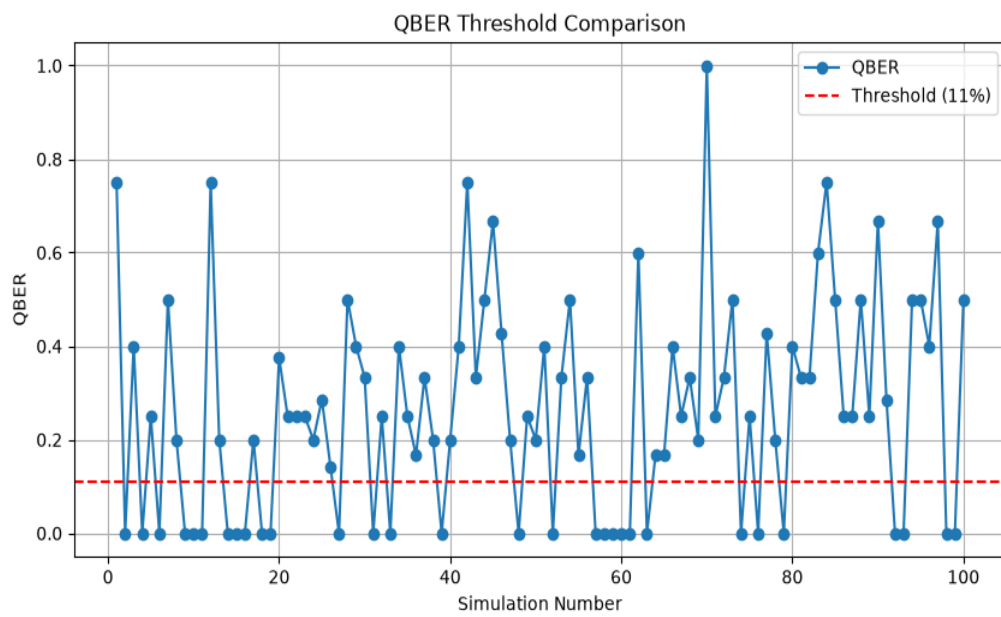

Simulation Summary

Total Runs : 100
Average QBER : 0.263
Maximum QBER : 1.000
Minimum QBER : 0.000
Attack Detection Rate : 70.00%
Secure Channel Rate : 30.00%

Generated Graphs

Conclusion

The communication channel shows evidence of possible eavesdropping because the average QBER exceeds the recommended BB84 threshold.
